

QUALITY POLICY

For **sustainable growth** and through improving our core competencies, we will ..

- Surpass customer expectations by prioritizing to quality performance and innovative solutions,
- Improve continuously our integrated management system,
- Reduce all natural and corporate resource consumption, waste and pollution to protect the ecological balance by implementing lean approaches,
- Meet requirements of standards and legal compliances by establishing preventive systems which should eliminate risks for environment, work safety and human health,
- Lead with employee engagement and agile capabilities, while remaining loyal to our corporate and ethical values.

To reach highest level of **satisfaction among our customers and all stakeholders.**

Şeref Burak Özaydemir
Vice Chairman of the Board of Directors
